

Post-Acute and Long-Term Care: The Interface With Shared Savings

Date and Fee

Wednesday, September 5, 2018 / 6–8 P.M.

There is **NO CHARGE** for this program, however registration is required.

Purpose/Audience/Objectives

This meeting will include an update on long-term care (LTC) professional issues as well as a presentation about value-based care and its relevance to post-acute and LTC settings

All health care staff in post-acute and long-term care settings, medical directors, physicians managing long-term care patients, advanced practice professionals, nursing staff, nursing home administrators and non-PMDA members are welcome to attend.

- ▶ Explain the different value-based care payment models
- ▶ Identify capabilities and resources required for success
- ▶ Define how data and predictive models can impact care
- ▶ Demonstrate how value-based care applies to real-world patients in the post-acute and long-term care setting

Schedule / 6–8 P.M.

- 6:00 Exhibits and Dinner
- 6:30 **Post-Acute and Long-Term Care: The Interface with Shared Savings**
- 7:30 Speaker Q&A / PMDA Business Update / Wrap-up
- 8:00 Adjournment

Credit / AMA, CMD, NHA credits are available

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Penn State College of Medicine and The Pennsylvania Society for Post-Acute and Long-Term Care Medicine.

Penn State College of Medicine is accredited by the ACCME to provide continuing medical education for physicians. Penn State College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses Using AMA Credit

Nurses will receive a certificate from Penn State College of Medicine verifying their participation in 1 hour of approved continuing medical education. Continuing education activities which are approved by accredited institutions of higher education and that are relevant to patient care or professional nursing meet the requirements of mandatory continuing education for registered nurses in Pennsylvania, as required by the Pennsylvania State Board of Nursing. The Board of Nursing recommends that nurses retain their certificates for a period of at least five years. Additional information is available through the State Board of Nursing at: <http://bit.ly/dospagovurse>

This live activity has been pre-approved by the American Board of Post-Acute and Long-Term Care Medicine (ABPLM) for a total of 1 management hour toward certification as a Certified Medical Director (CMD) in post-acute and long-term care medicine. The CMD program is administered by the ABPLM. Each physician should claim only those hours of credit actually spent on the activity.

The State Board of Examiners of Nursing Home Administrators has approved this program for 1 clock hour under provider number PR000201L.

Speaker

Steven L. Phillips, MD

Dr. Phillips has worked in the field of primary and long-term care medicine for frail and vulnerable elderly for the past 25 years as a clinician, researcher and administrator. He remains involved at a local, state and national level with an interest in enhancement of transitional care models, chronic care management, policy development, quality improvement and population based approaches.

He is the founder and CEO/President of Geriatric Specialty Care (GSC) in Northern Nevada. GSC is an "Office Without Walls" serving the frail and home-bound elderly residing in private residences, group care homes, assisted living facilities and nursing facilities. In addition, Dr. Phillips serves as medical director for the HealthInsight Nevada (QIN/QIO) Enhanced Care Coordination Program (ECCP) awarded by the Centers for Medicare and Medicaid Innovation (CMMI). The Admissions, Transitions, Optimization Program (ATOP) is charged with the implementation of INTERACT III throughout 25 nursing facilities across the state of Nevada. ATOP is utilizing a rescue response team (RRT) approach with a risk stratification dashboard and patient registry.

Dr. Phillips has recently joined the FEMR Group to bring medical and technological applications to a somewhat dysfunctional health care information exchange (HIE) environment. Working with medical and technological experts supports a more disciplined approach for participation in alternative payment models (APM) of care. He is involved in the development of telehealth and telemedicine outreach to the underserved areas of rural and frontier Nevada.
