

FALL PROGRAM – Guest Faculty

FALL PROGRAM

The successful *Fall Educational Program* provides members a clinical review and update of common problems affecting the elderly. Each year, a different clinical geriatric related topic is featured. The program, held at a local area restaurant, provides members the opportunity to socialize, network and enjoy a quality, educational presentation from highly regarded speakers. Continuing medical education and other health care professional credits are available. The dinner program is complimentary to members.

The Society is proud to Highlight Past Distinguished Guest Lecturers
