As President of the Pennsylvania Geriatrics Society (PAGS-WD), I personally invite your organization to join the Society under one of the newly formed *Organization Membership* levels. Several membership levels are available to fit your company's needs.

The PAGS-WD formed in 1991, is a non-profit organization comprised of physicians and health care professionals from all disciplines committed to the provision of quality health care for older persons. As a regional affiliate of the American Geriatrics Society (AGS), the organization aids in the efforts of the AGS in developing, implementing and advocating programs in patient care, research, professional education, public policy and public information for the Western Pennsylvania region.

The Society strives to engage members through education, advocacy, networking and collaborative efforts. Your partnership through an Organization Membership level allows us to reach a broader audience to participate in our award-winning, quality programming to health care professionals in our region, as well as sustaining our philanthropic efforts in supporting medical students, residents and fellows.

Benefits of subscribing under an Organization Membership level include:

- Individual membership for staff from your organization (membership for 3, 7, 10, 12 or 15 individuals are offered).
- Link to your company's website from the www.pagswd.org site.
- All individual members receive a discounted registration to attend the AGS award-winning Clinical Update in Geriatric Medicine conference, a premier 2-1/2 day conference and complimentary registration for several educational programs held throughout the year.
- Organization will be acknowledged in the Digital newsletter (published bi-annually and received by 240 healthcare professionals).

Platinum and Champion partners receive enhanced benefits - all the above items - including:

- a featured organization description in the Society "member alert" email and digital newsletter.
- Opportunity to purchase a discounted exhibit table at the annual [Clinical Update in Geriatric Medicine Conference](#).

A complete listing of levels is attached. I encourage you to review and select an option suitable for your company. Nadine Popovich, administrator, is available to answer questions and to activate your Organization Membership. She can be reached at (412) 321-5030 or npopovich@acms.org.

I look forward to welcoming you and your staff to this active organization!

Sincerely,

Namita Ahuja, MD, MMM
